DEPARTMENT OF EDUCATION

Don R. Hartsell
Commissioner and Managing Director
World Air League

World Sky Race Founder

February 12th 2025

Dear Don,

The Bermuda Ministry and Department of Education are pleased to confirm our expressed interest and commitment as participants and as an educational resource in designing and developing the World Sky Race Internship program.

Our first phase of World Sky Race program developments has been outlined for the Summer STEAM series. This year's summer program will engage student participants in design and development of Airships (Blimps) using LINGO.

As we anticipate the World Sky Race unveiling in 2026, the Bermuda Department of Education are sharing a framework for the internship program, as the second phase. Please review the attached framework draft.

We are eager to bring on board our further and community education partners, here in Bermuda in this race for the planet and race for humanity.

Sincerely,

A handwritten signature in cursive script that reads 'L Simmons'.

Llewellyn Simmons, Ph. D.
Director of Academics
